

Award-Winning Service, Year After Year

Newport was recognized with **70 “Best in Class” awards** in PLANSPONSOR magazine’s 2019 annual defined contribution survey, based on feedback from our plan sponsor clients. In fact, we earned the **#1 ranking in total awards** in the markets in which we compete.

We won awards across all service categories, earning praise for everything from our plan sponsor website to the flexibility of our plan designs. Our employees were also recognized for their knowledge of the retirement plan industry, the regulatory and compliance support they provide, and their responsiveness to our clients.

PLANSPONSOR is a premier monthly publication reporting on the retirement services industry. For decades, the magazine’s annual survey has been one of our industry’s leading measures of companies’ satisfaction with their plan providers.

These results are a tribute to our people and a validation of our focus on four pillars—objectivity, advanced expertise, exceptional service and leading-edge technology. **We thank our clients for this important vote of confidence.**
